ALLOCATION OF OPERATING GRANTS 2020

Decided in TJK 4/2020 (on 21 April)
Approved in HYYH 17/2020 (on 29 April)

ALLOCATION OF OPERATING GRANTS 2020

GENERAL POLICIES

The scoring that the allocation of operating grants is based on is itself based on the matters and documents listed in the call for applications. Within the framework of these matters and documents, as well as other documents guiding the Financial Committee, the Committee has, in the course of allocating the grants, made policy decisions both on a general level and, in special cases, in relation to individual organisations.

By the Financial Committee's decision, a low proportion of HYY's members among the organisation's members affected the grants in the following way:

Proportion of HYY's members	Effect on the allocation of operating grants
Under 50% but at least 45%	Points awarded based on the number of members were halved
Under 45% but at least 40%	Points awarded based on the number of members were set to zero
Under 40% but at least 30%	Points awarded based on the number of members were set to zero and the final grant was halved
Under 30%	No grant was awarded at all

If one of the above criteria for cutting the grant due to a low share of HYY's members applied to the organisation, the Financial Committee deemed that, in such cases, it is possible for the grant to decrease by over 35%.

In accordance with the Conditions for the allocation and use of operating grants, the grants awarded to unregistered associations were limited to 420 euros. In previous years, this has mistakenly been left undone, but the Financial Committee decided to rectify the situation and adhere to the conditions. By the Financial Committee's decision, the grants awarded to some organisations consequently decrease by more than the usual 35% limit for change. If the awarded grant is decreasing by over 35% for this reason, a note has been left in the notes column.

**ALLOCATION OF OPERATING GRANTS
2020**

Decided in TJK 4/2020 (21 April)

Approved in HYYH 17/2020 (29 April)

The €85 paid to new organisations as the initial amount of grant in accordance with the allocation model for the operating grants was awarded to new organisations and organisations processed as new. In addition to this, the specialist in organisations has decided to award €100 of discretionary grant per new organisation. However, the discretionary grant is not part of the operating grant and has consequently been separately noted in the notes column. Organisations accepted to operate under HYY in spring 2020 are listed last in their own organisational category because they have only been awarded an organisation ID after the application period for operating grants began.

The following symbols are used in this document after the amount of grant awarded to organisations:

- * Limit of €420 for unregistered associations
- ** New organisation or organisation processed as new. In addition to the initial €85 grant, the specialist in organisations is awarding €100 of discretionary grant.
- *** Organisation covered by the limitless growth rule that applies for the first three years.
- **** Other observation related to the grant. Further information is available in the Tahlo system or by enquiring from the chair of the Financial Committee.
