ALLOCATION OF PREMISES 2020, INITIAL PROPOSAL

Financial Committee 5/2020 (26 May)

ALLOCATION OF PREMISES 2020, INITIAL PROPOSAL

This document is the initial proposal for the allocation of premises approved by the Financial Committee in its meeting 5/2020 (on 26 May). This version is sent to organisations for comments for the duration of the summer. The Financial Committee will decide on the actual proposal in its next meeting in the autumn and then take it to HYY's Board for confirmation.

We received a total of 158 applications in the 2020 allocation of premises. The majority of organisations applying for premises had been at least relatively satisfied with their current premises, which was reflected by most of them applying to continue in their current premises. As usual, this allocation round could not be carried out without making any changes, as the applications of new organisations recently accepted to operate under HYY forced us to reconsider the composition of certain facility complexes to some extent.

Most of the changes we made were small. One of the issues we had to consider very carefully in the allocation of premises was the joint application of ten organisations operating in Viikki for premises in the New Student House, and the Financial Committee had a long discussion on this particular topic. In the discussion, we considered the benefits of placing the organisations from Viikki in the New Student House in relation to the operating conditions of organisations already operating in the New Student House. In the end, we concluded that, unfortunately, placing these organisations in the New Student House would not functionally serve them to the same extent that it would complicate the operations of organisations already operating in the New Student House.

This initial proposal is not the final allocation of premises. Organisations may comment on the initial proposal until 11.59 pm on 31 August. The comments made by the organisations will be compiled and summarised for the Financial Committee, which will, in its meeting on 10 September, make a decision on proposing the allocation of premises to the Board for

2 (12)

confirmation. This means that organisations still have the opportunity to express their views and opinions directly to the Financial Committee during the summer. Instructions for making comments can be found on HYY's website in the announcement on the allocation of premises.

Below, we have listed HYY's organisational premises categorised by building as well as the justifications for the allocation in each of them. For any further information, please contact Chair of the Financial Committee Taavi Heikkilä.

NEW STUDENT HOUSE

6th floor

Osakuntalainen unioni
Opiskelijakansantanssijat
OYV
SavO
SOL
SOSSu
VSO

Justifications:

The administration of the premises works extremely well and is very active despite the lower number of members. Savolainen osakunta and its clubs SOL and SOSSu left a joint application, and the other organisations on the floor applied to continue in the premises independently.

5th floor 5. krs – Humanistiklusteri

Humanistispeksi

HYYn Elokuvaryhmä

Karavaani

Katharsis

Konteksti

Kouki

Kronos

Justifications:

In terms of the number of organisations and events, Humanistiklusteri is the second-largest of all our clusters. With the exception of Lycksalighetens ö (which applied for the premises independently), the arts organisations left a joint application to continue in the premises. The only change to the previous situation is Repliikki moving to other premises and the new organisation Orbis replacing it. The administration of the premises has been commendable, and there is no reason to oppose the organisations continuing in the premises.

Hyrsky

Akateeminen pöytälatkäyhdistys (Pöly) (Storage space, just like up to now)

Justifications:

The Swedish-language organisations of Nypolen left a joint application for the premises. There have been individual mistakes regarding the use of the premises in previous years but, so far, nothing serious enough to support breaking up the complex. Akateeminen viiniseura has been moved from the premises to the Alexander cluster because of synergy benefits and the fact that the new premises correspond to the club's needs better. Hyrsky ry is replacing the wine club, as its needs are well suited to Nypolen. Akateeminen pöytälatkäyhdistys may also continue using a few cabinets in the premises as storage space just like it has done up to now.

4th floor right

ESO

TYT

EOL

Justifications:

ESO and TYT left a joint application to continue in the premises. Even though there has been some friction between the organisations before, they are both motivated to develop their facility practices and work on a long-term coexistence in the premises. EOL also applied to continue in the premises, and as it is ESO's club, it is natural to place the two in the same premises.

3rd floor - Kannuklusteri

Kontakti
KTTO
Kumous
Mana

Media
Polho
Politicus
Valta
Status
Stigma
Stydi
Taso
VOO
Valtsikan Speksi
KansY
HELP

Justifications:

Kannunvalajat, the other organisations of the Faculty of Social Sciences and HYYHY left a joint application to continue in the premises. HYAL and FinMUN also applied to continue in the premises. No such activities that would support moving the organisations elsewhere has occurred during the previous allocation period. OSY and HYKY, which have previously been placed in the premises, did not apply for premises at all. As a change to the previous situation, Moodi ry was not allocated premises from Kannuklusteri and has instead received premises from Christina Regina as a part of a joint application there. This is mainly due to the pressure on the premises of the New Student House as well as the high level of facility needs. KansY and HELP were placed in the premises as new organisations, as the premises are well suited for their needs, especially regarding meetings in mornings and daytime.

ALLOCATION OF PREMISES 2020, INITIAL PROPOSAL

Financial Committee 5/2020 (26 May)

Matlu	Moodi
Helsingin yliopiston kemistit (HYK)	Resonanssi
Kumpulan Speksi	Symbioosi
Limes	Synop
MaO	TKO-äly
Matrix	Vasara
Meridiaani	Symbioosin kuoro

Justifications:

The organisations that have been operating in the premises left a joint application to continue in the premises in which they have operated since the building was completed. Their operations have been very active, and in terms of the number of events, it is the most active cluster in HYY. No need to change the composition there. Compared to the previous allocation period, some changes have taken place due to a couple of organisations (Geysir, EGEA Helsinki) not operating under HYY anymore and Mesta ry not applying for premises in this allocation round. Symbioosin kuoro is coming to the premises as a new organisation – the choir operating in the same premises as Symbioosi seems natural. Throughout the current allocation period, the organisations operating in the premises have conducted themselves in a first-rate manner in the administration of the premises and in their commitment to developing the premises, which also supports approving the application as is, thus placing the organisations in the premises they applied for.

7 (12)

TILAJAKO 2020 TJK ALUSTAVA ESITYS
VALMIS ENG

Talousjohtokunta 5/2020 (2b.5.)

Penkereen Speksi
Phenomena

Justifications:

The organisations have left a joint application applying to continue in the premises in which they have operated since the building was completed. Their operation has been active, and they have dealt with the administration very well – no reason to change the composition. The only changes to the previous allocation of premises is in the changed names of the organisations.

Ulrika

A-ryhmä	HYTKY
Animalian opiskelijaryhmä	HYY:n Vihreät
Helsingin yliopiston Attac	Opiskelijoiden oikeutta eläimille
HYMY	Sitoutumaton vasemmisto
HYRMY	Elokapina
Helmut	Students of Colour

Justifications:

The organisations did not leave a joint application, but the organisations operating in the premises have still each expressed their desire to continue to operate in the premises. Elokapina and Students of Colour would enter the premises as new organisations, both being societally active organisations and thus likely to get settled in the group, which surely shares the values of both organisations. Both have also requested premises from the Domus Gaudium area, Elokapina specifically from Ulrika.

Alexander

Akateeminen Olutseura

Hyvät Martat
Karjalainen Osakunta
Kymenlaakson Osakunta
Wiipurilainen Osakunta
Wiipurilaisen Osakunnan Laulajat
Akateeminen viiniseura

Justifications:

Akateeminen viiniseura would be coming to the premises as a new organisation, moving from Nypolen. This move is considered to improve the cooperation opportunities of the organisations, especially with Hyvät Martat and Akateeminen Olutseura, but also with student nations, as similar cooperation has existed previously, too. In addition to this, the wine club's request for a good hall and kitchen are well realised in Alexander. Otherwise, the cluster's composition would remain as it is. The student nations and WiOL left a joint application, while Hyvät Martat and Akateeminen Olutseura left their own joint application for the premises. The premises have been extremely well administered.

MECHELININKATU 3D

Hedda Gabler ("pupu")

9 (12)

ALLOCATION OF PREMISES 2020, INITIAL PROPOSAL

Financial Committee 5/2020 (26 May)

Justifications:

We decided to place the joint application group consisting of MMYL, Biosfääri and their member organisations in Hedda Gabler. In addition to this, organisations placed in the premises will mainly include the organisations that have already been using the premises, while EKY and HYDE will join as new organisations, the latter mostly needing storage space.

The Financial Committee discussed the placement of the joint application organisations extensively and at length. The conclusion was that current challenges with the use of premises, such as a certain inflexibility with reservations, along with challenges related to the facilities themselves, such as dividing the premises in a suitable manner, can better be resolved in some other way than placing the organisations in the New Student House.

The most notable counterarguments for placing the organisations in the New Student House were the challenges related to regular reservations, the impossibility of placing the organisations in the New Student House together and the effects on the operating conditions of organisations already operating in the New Student House. The challenges related to the regular reservations that were mentioned in the joint application would not go away at the New Student House – they would either stay the same or get worse. The wish to be placed in the same premises that was mentioned in the joint application was not possible at the New Student House due to the limited space available in the premises and the activity. The issue of location would have been the only request that could have been granted by placing the organisations in the New Student House. However, the Financial Committee was also forced to note that due to the fire safety limits and limited space at the New Student House, placing such a large number of organisations in the New Student House would not have been sensible without moving entire clusters away from there. From the perspective of encouraging organisations to plan their operations in the long term, moving functional cluster complexes elsewhere or breaking them up was not considered sensible either.

The Financial Committee acknowledges the challenges caused by the location of Mechelininkatu 3D for the organisations of Viikki but, in the end, had to conclude that other current problems with facilities could better be solved with other measures and thus decided to propose the joint application organisations to be placed in Hedda Gabler contrary to the organisations' own wishes. Several theoretically possible alternatives for placing them in the

10 (12)

TILAJAKO 2020 TJK ALUSTAVA ESITYS
VALMIS ENG

Talousjohtokunta 5/2020 (2b.5.)

New Student House were discussed, but the Financial Committee saw more negatives in these options than in the model chosen for this proposal.

In the long term, the solution to issues related to premises that would best meet these needs would be for HYY's operating finances to have more organisational premises in its use than at present. To serve the organisations of Viikki, some should be located in Viikki. Unfortunately, it is not possible to influence this within the framework of the premises currently available for the allocation of premises.

Jo March ("kissa")

Alter Ego

ESN Uni Helsinki

HÄKKI

Helsingin yliopisto salamurhaajat (HYS)

Helsingin yliopiston science fiction klubi (HYSFK)

Opiskelijavinokkaat (OVI)

Pääkaupunkiseudun eurooppanuoret

Repliikki

Uniriders

YliGo

Yliopiston anime ja manga (YAMA)

Justifications:

Many of the organisations operating in Jo March left a joint application to continue in the premises. The administration of the premises has worked well, and the operations have been active, which makes approving the application justified. ESN Uni Helsinki applied for premises from the New Student House, but we were not able to offer them suitable premises from there. Repliikki was placed here as a new organisation after requesting accessible premises.

11 (12)

TILAJAKO 2020 TJK ALUSTAVA ESITYS
VALMIS ENG

Talousjohtokunta 5/2020 (2b.5.)

OTHER PREMISES

Säättämö

Prologi

Studio & darkroom

Ylioppilaskamerat

Justifications:

The premises are not suitable for several organisations nor for the use of any other organisations, which means that Prologi and Ylioppilaskamerat retain the premises they have been using.

Separate storage facilities:

2B54: Helmut

2B53: Akateeminen puhallinorkesteriyhdistys

2B47: Valtsikan Speksi

B001: HYTKY

Justifications:

There are more organisations that need storage space than we have storage space to allocate. In the allocation of storage space, we emphasised organisations who are losing their previous storage space and/or for whom the storage space is especially important. Storage space B001 was not in the original list for premises to be allocated, as we were not aware of its existence at that point due to the information on storage spaces having been lost. This space would be allocated to HYTKY, whose equipment would otherwise take up an unreasonable amount of space in the Ulrika cluster. HYTKY has also used the premises during the previous allocation

12 (12)

TILAJAKO 2020 TJK ALUSTAVA ESITYS
VALMIS ENG

Talousjohtokunta 5/2020 (2b.5.)

period. A-ryhmä also applied for storage space, but unfortunately, we were not able to grant them any this time.

Application for premises rejected as unjustified

Sitoutumaton vasemmisto (Representative Council group)

HYYn vihreät (Representative Council group)

Justifications: The background organisations of the Representative Council groups applied for premises, and they are being allocated some in this proposal. For this reason, these applications are formally rejected as unjustified. We will, however, discuss the groups' needs for premises with the groups and will try to meet their needs for meeting space by means outside the allocation of premises.

Organisations that have previously had premises but did not apply for premises now:

Karateseura Honbu

EKYn speksi

Studentteatern (varastotila)

BAFFU

Autonomiset Opiskelijat (AutOp)

Mesta

Opiskelijoiden sos. dem. yhdistys OSY

HYKY

CSSA-UH
