

ALLOCATION OF PROJECT GRANTS 2020

The Financial Committee's decision on project grants

In its meeting on 26 May, the Financial Committee decided on the allocation of project grants based on applications. The total sum applied for by projects that were approved to receive a grant was more than the 6,000 euros budgeted for project grants. For this reason, the committee decided to only grant 82% of the amounts that were applied for. In addition to this, the committee decided to slightly reduce the grant for the project marked with an asterisk (*) due to the grant's purpose as detailed in the application. Grants were not awarded in cases where the applications described activities considered as continuous operations. This includes applying for a second grant for the same project, direct excursions and projects in which the organisation applying for the grant does not operate under HYY.

• Career oriented seminar and workshop for students	0
• Excursion to a national park	410
• Golden Jaakko movie club / sound equipment acquisition	369
• 'The Topelia Story' movie	410
