

OPERATING GRANTS 2025

GENERAL POLICIES

The scoring that the allocation of operating grants is based on is itself based on the matters and documents listed in the call for applications. Within the framework of these matters and documents, as well as other documents guiding the Financial Committee, the committee has, in the course of allocating the grants, made policy decisions both on a general level and, in special cases, in relation to individual organisations.

The total sum used on operating grants decreased significantly from 2024. As a result, our aim was for all comparisons to grants awarded in 2024 to use figures with corresponding decreases. However, the new caps on assets and stricter monitoring of the proportion of HYY's members among organisations' members resulted in it not being possible to decrease the previous year's grants in the same proportion without grants for organisations increasing over 35%. The Financial Committee has decided that the comparisons to previous year's grants for each organisation category will be done as follows:

The total sums for operating grants in HYY's budget for 2025 decreased significantly from the previous year's sums, which decreases the size of the average operating grant. In this situation, the allocation model for operating grants states that the previous year's grants are scaled down in proportion to the change in the overall sum before determining the minimum and maximum amounts of grant for each organisation. However, fewer organisations applied for the operating grants this year, while the stricter monitoring of the proportion of HYY's members among organisations' members along with the new caps on assets further reduced the number of organisations receiving a grant. As a result, the previous year's grants could not all be scaled down in proportion to the changes in the overall sums without some grants increasing by over 35%. In the Financial Committee's proposal, the previous year's grants have consequently been scaled down using the following ratios:

Organisation category	Operating grants 2024	Operating grants 2025	Real ratio	Ratio used for the operating grants
Subject and faculty organisations	€88,825	€59,000	66%	60%
Student nations	€15,045	€4,500	30%	60%
Culture organisations	€21,250	€8,000	64%	100%
Other organisations	€21,250	€12,000	56%	60%
Representative Council groups	€10,200	€7,120	70%	

In practice, this means that the operating grants could not decrease in proportion to the budget. The sums of previous year's grants awarded to organisations that did not apply for a grant or fulfil the application criteria this year thus significantly compensated for the decrease in the budget. Despite this, however, the average amount of grant awarded factually decreased by €284.42. The purpose of the changes was to direct the grants to our smaller organisations, and our tentative estimate is that this was achieved: on average, the actual grant sum decreased the most for organisations that received the biggest grants, whereas the actual decrease in the grants awarded to organisations that received smaller grants was smaller.

In accordance with the allocation model for operating grants, a low proportion of HYY's members among an organisation's members affected the grants in the following way:

- Share under 50% No operating grant was awarded.
- Share under 60%: The maximum grant sum was halved.

In accordance with the Conditions for the allocation and use of operating grants, the grants awarded to unregistered associations were limited to a maximum of 420 euros.

As per the allocation model for the operating grants, the committee decided to award €100 to new organisations and organisations processed as new.

The grants for Representative Council groups were determined according to the number of seats the groups that applied for a grant have on the council.

The following symbols are used in this document after the amount of grant awarded to organisations:

Re	Unregistered association. Maximum grant awarded is €420.
U	New organisation / organisation processed as new. A grant of €100 awarded.
Ra	The organisation is covered by the rule that increases to grants awarded to organisations during their first three years of operation are unlimited.
J+	The share of HYY's members among the organisation's members is under 60% but over 50%
J-	The share of HYY's members among the organisation's members is under 50%
Vh	The organisation does not have its own fundraising activities
T	No need for a grant
Va	Exceeds the cap on assets
E	Not yet accepted to operate under HYY, a grant will be awarded if the organisation fulfils the conditions for operating under HYY by 31 May.

Real average change: -€175.36

44 organisations applied for a grant, with nine of these not awarded one.

12 (12)

OPERATING GRANTS 2025

HYYH 18/2025

REPRESENTATIVE COUNCIL GROUPS

ID	Organisation	Operating grant
5-6b46-582c	HYYn Osakuntalainen Unioni ry	€550.00
5-09a8-e204	Svenska nationer och ämnesföreningar (SNÄf) rf	€684.00
5-5e3c-d0fb	Edustajistoryhmä HELP	€1,095.00
5-3026-2f02	Hyal ry	€1,232.00
5-324c-e76e	Hyy Vihreät, De Gröna vid HUS	€1,369.00
5-97c1-1519	Sitoutumaton vasemmisto ry	€2,190.00

The grants for Representative Council groups are determined solely based on the group's number of seats on the council, and other criteria thus do not affect them. For this reason, it does not make sense to compare the sums to previous years either.

The average grant for Representative Council groups is €1,187. All Representative Council groups did not apply for a grant.
